

完成以下三项：

一．王青老师 web2.0 课程网站 **hw5-ASCIIimation**

<http://my.ss.sysu.edu.cn/wiki/display/W2PSC/Homework+5+-+ASCIIimation>

二．王青老师 web2.0 课程网站 **hw6-Fifteen Puzzle**

<http://my.ss.sysu.edu.cn/wiki/display/W2PSC/Homework+6+-+Fifteen+Puzzle>

三．潘老师 **讲义 13-Ajax&JSON.pdf**

操作实践：

1.将出租车轨迹应用的 jQuery 框架，改成 Prototype 框架。并将出租车的 id （电话号码）从客户端发送到服务器端。

2(2).仿照出租车行驶信息，写一个 web service 能向客户端提供一组微博 JSON 数据。

其中，作业项三的 2(2)我重新说明一下：

1) 请大家安装好 MongoDB 和 pymongo

2) 然后根据我们提供的脚本，把数据导入到本地数据库

在命令行窗口运行命令 `python importDB.py`

如果运行后，在命令行窗口显示了 dict 格式的数据，表明你导入成功(见后面插图说明)；

如有问题，请与 TA 联系。

3) 任务要点

a)进入 <http://localhost:8888/> 页面，直接显示博文相关信息，包括：title, detail, content 三部分内容

b)博文信息底部有一个 Get Comments 的按钮，点击后，使用 Ajax 提交请求到服务器端，

服务器端把数据库中的 comment 封装成 json 格式，返回给客户端，客户端动态生成 DOM 元素插入到博文信息后面，评论内容包括 name, time, content。

4) 数据库里面导入了什么数据，你可以直接点开 `importDB.py` 使用编辑器查看 `paper_info` 这个变量

插图说明：

导入数据库，输入命令 `python importDB.py`

```
C:\Users\Luo\Desktop>python importDB.py
{'content': u'<p>I want to start by giving a HUGE THANK YOU to Mr. Bill Gates f
or an amazing gift and secret santa experience. Bill- you ROCK <can I call you B
ill?! I feel like we\'re friends now!>. I am so very, very grateful for the amaz
ing and thoughtful gift you have picked for me! Not only is the gift PERFECT fro
m anyone, but I am sincerely very appreciative that you took the time to find so
mething so fitting for me. I asked for a return address to send a thank you card
```

进入 <http://localhost:8888/> 显示博文内容

Spoiler alert: Bill Gates did not get you, because he got me.

Dec. 18, 2013 by NV1227, 139 comments , From: thisisbillgates | Secret Santa 2013

I want to start by giving a HUGE THANK YOU to Mr. Bill Gates for an amazing gift and secret santa experience. Bill- you ROCK (can I call you Bill?! I feel like we're friends now!). I am so very, very grateful for the amazing and thoughtful gift you have picked for me! Not only is the gift PERFECT from anyone, but I am sincerely very appreciative that you took the time to find something so fitting for me. I asked for a return address to send a thank you card to whomever my "Santa" was. I see that you did not provide one so I hope this serves as a proper thank you. Regardless, I'd still love to send a personal thank you if you want to give me your mailing address!!

I did not realize my santa was Mr. Bill Gates himself until very far into this. Here's my "journey" of discovery, sorry for the length but I thought many might be interested.

My information got pulled about 3 days after elf matching was done. My santa had not messaged me, but I knew I was super thorough and have a pretty good posting history so I wasn't too worried that my santa would stiff me. Finally, I received a shipped notification to my email on Monday- I was SO SO SO excited but even more excited when I realized A) my gift was being OVERNIGHTED and B) it was 7 pounds- OMG!

Of course life is life and I wasn't able to get to the gift until this evening (Wednesday night). I decided to document my journey, starting with the box. The first thing I noticed was a stuffed animal. I didn't know I gave off the stuffed animal vibe, but I excitedly added him to my collection of teddy bears and other delightful friendly creatures. Next, I found the card. Next, I found the card. To me, from Bill. This still had not clicked, by the way, that it was Bill Gates.

talula79	Dec. 18, 2013	How cool is that? I asked him to pay off my student loans if he got me. I guess that is a no go now. ;-)
ltrem	Dec. 18, 2013	holy wow!!
mrefish	Dec. 18, 2013	Thank you for sharing your experience! It was a fun read :)
Sembay	Dec. 18, 2013	I laughed really hard at that. Those are wonderful gifts, and you are an awesome receiver! Very entertaining experience :)
Acaelia	Dec. 18, 2013	That is amazing! The picture alone is worth it!!

## 提交说明:

随堂测试三之前，提交到 ftp

早上上课班级

<ftp://my.ss.sysu.edu.cn/%7Epml/se805/2013fall/morning/hw%20for%20test3/>

下午上课班级

<ftp://my.ss.sysu.edu.cn/%7Epml/se805/2013fall/afternoon/hw%20for%20test3/>

晚上上课班级

<ftp://my.ss.sysu.edu.cn/%7Epml/se805/2013fall/evening/hw%20for%20test3/>

\*\*\*其中三个作业分别放到名字为 hw5, hw6, lec13 的文件夹，然后把三个文件夹打包成一个压缩包，命名为 学号\_名字拼音.zip(.rar)      10389000\_xiaoming.zip
